

Fish Scale is an evenly balanced hybrid strain crossing East Coast Sour Diesel and Crippy. This bud is a patient favorite for its numbing high that will have you kicked back and totally calm. As your mind becomes unfocused, you'll begin to settle into a deeply relaxing physical high leading to full blown sedation. Perfect for treating migraines, chronic stress, depression, insomnia and chronic pain. This bud has a spicy peppery flavor with a touch of pungency upon exhale. The aroma is of heavily spiced kush with a strong black pepper overtone.

Indica: 50%    Sativa: 50%

THC: 25-26%

Rx: Chronic pain, depression, headaches, insomnia, migraines, stress.
